

Welcome! Canberra Potters' annual *Student | Teacher Exhibition* is our opportunity to celebrate the skills and creativity of the many students who attend classes at Canberra Potters. Designed to give students a welcoming environment to publicly display their work, participation is open to all students – adults and children – who have attended classes at Canberra Potters in the previous 12 months. It can be quite daunting putting your work on public display so participating in this exhibition is not mandatory but instead we leave it up to the students to decide when they feel ready to exhibit.

On display you can see work from some of our youngest students in children's classes, students in supported disability classes, through to intermediate potters and more advanced ceramicists participating in professional masterclasses! Our strong, experienced team of teachers is invaluable in guiding students in their exploration of clay and creativity and we are fortunate to have a broad spectrum of teachers who are all excellent potters in their own right. Our teaching team is supplemented by visiting artists, including national and international artists-in-residence. Teachers' work is exhibited alongside students' work.

*Items that are for sale have prices listed in this catalogue – please see shop staff if you would like to make a purchase.*

-
